

JOHN MATTHEW A. ENRIQUEZ

FULL STACK WEB DEVELOPER

Zaragoza, Nueva Ecija, Philippines | 0948 764 1363 | johnmatthewenriquez1031@gmail.com

PROFESSIONAL SUMMARY

Results-driven full stack web developer with hands-on experience across frontend and backend development, database design, and workflow management. As a student, led end-to-end delivery of academic projects as head developer, from planning through deployment. Certified in HTML/CSS and OutSystems O11 low-code development, with professional experience contributing to an outsourced enterprise engagement supporting the Supreme Court of the Philippines.

SKILLS

Frontend: React JS, HTML5, CSS3, Bootstrap 5, MudBlazor, TailwindCSS

Backend: JavaScript, TypeScript, Express.js, PHP, C#

Databases: PostgreSQL, MariaDB

Tools & Platforms: Claude, Figma, GitHub, VS Code, Visual Studio, OutSystems (low-code)

WORK EXPERIENCE

Jr. Full Stack Developer — Metaverse Holdings Corp. (under Sagesoft Incorporated)

Jul 2025 – Jun 2026

Outsourced engagement supporting the Supreme Court of the Philippines

- Developed and maintained frontend and backend components for enterprise-grade applications as part of an outsourced government-linked project.
- Managed data integrity and database structure to support reliable, scalable application performance.
- Collaborated within a structured outsourcing team to deliver features on schedule for a high-stakes public-sector client.

Web Developer Intern — Metaverse Holdings Corp.

Jan 2025 – Apr 2025

- Built foundational full-stack experience through direct exposure to an enterprise-level project, consulting with clients and ensuring development aligned with their requirements.
- Gained hands-on exposure to production database management, including server-based live data updates and structured data handling.

Key Project: Accounting System — Head Developer

- Led planning and scheduling for the complete project lifecycle, from requirements to deployment.
- Directed frontend and backend development, ensuring consistent data integrity and structure.
- Oversaw workflow design and database management for the finished system.

PROJECTS

Capstone Project

Jan 2024 – Dec 2024

Head Developer

- Served as head developer, planning and scheduling the complete project build from concept to completion.
- Directed frontend and backend development alongside data integrity, structure, and database management.

Academic Portal and Grade Tracker for DepEd JHS

July 2026 - Present

Personal Project

- Designed database relationship diagram, developing frontend and backend components, handling API Integrations, updating versions using version controll tools (GitHub), and managing the underlying database for a prototype academic portal and grade tracker application.

CERTIFICATIONS

- IT Specialist — HTML & CSS Certification, Certiport/Pearson VUE (Nov 22, 2024)
- OutSystems O11 Associate Developer Certification, OutSystems (Aug 18, 2025)
